**16.8.01 Release Notes**

Type	Hot Key or Application	Subject	Resolution	Ticket
Defect	E-C	Estimating   Print tab - Board Cost totals showing all 0	On the Estimate   Print tab, estimates calculated in version 16.8.0 may not have displayed the following data in the probe record: Board/M, Board %, Board Contrib/M, Board Contrib\$. While the values were not displayed, they were included in the estimate totals. This has been corrected; all board related fields now present correct data.	38295
Defect	I-F-1	FG Item - Error selecting to update Bins record	On the Bin/Jobs tag of a FG Item, if you selected the 'View Bin Details' option and double clicked a tag to update, you would have received an error: LIST-ITEM-PAIRS must contain an even number of entries....'. This was due to not having any Adjustment Reason codes defined in your system. This has been corrected; Adjustment Reason codes are not required and the error will no longer be returned.	38080
Defect	I-F-1	FG Item - missing 'Item' specific data fields vs. 'Location' fields	The ability to define a ReOrder level, Purchase Quantity UOM and Beginning Date for the 'Item' vs. the Items 'Locations' has been restored; these Item level fields are now back on the 'Inventory' tab of FG Maintenance.	38298
Defect	Main Menu	Main Menu - Favorites is not saving newly added programs	When adding new programs to the 'Favorites' list, when the user logged out and back in the newly added Favorites would not have been saved. This has been corrected.	38026
Defect	N-K-5	User Control - Unable to clear Users	Users deleted from the User Control program were not properly disconnected from the database thus continuing to consume a database license. This has been corrected; users are fully disconnected from the database whenever they have been manually deleted from User Control   Current tab, or if they are automatically disconnected based upon the 'Max Session Time' parameters defined on the Settings tab.	34280
Defect	T-D	Touchscreen Posting error - No Crew is entered for machine	Posting Touchscreen transactions may have returned errors on the Posting report: No Crew is entered for Machine XXXXX Job # XXXX Charge Code XXXX. This has been corrected.	34873
Defect	T-D	Touch Screen - Timestamps reverting to 00:00	The method in which Shifts and Breaks were being created may have caused various transaction Start and/or End timestamps to be reset to 00:00. This has been corrected.	38354
Defect	T-D	Touch Screen Posting - Qty = ? and Employee times = 0:00	When posting Machine Transactions you may have received associated employee transactions with timestamps that did not match the Machine times, resulting in employee transaction with no time, and a incorrect Machine Qty of a '?'. This has been corrected.	37246
