16.9.0 Hot Fix Release Notes

Hot Fix Version	Hot Key	Type	Subject	Resolution	Ticket
16.9.01	I-U-2	Defect	Finished Goods Transfer - incorrect message: 'tag number has already been used'	When entering a FG Transfer transaction and the transaction has no Tag #, you may have received an error message: 'This Tag number has already been used. Please enter a unique Tag number.' This message was not presented to the user on the first transaction entered, but was on the second thus restricting any further entries. This has been corrected; valid transactions without a Tag # are now processed correctly.	50209
16.9.01	O-U-1	Defect	Order Entry - Ship Notes not populating when 'adding' a new release to an Order	If your system is configured for 'Expanded Ship Notes' (NK1-SHIPNOTESExpanded), when adding a new Releases to an Order the Ship Notes for the Ship To Address on the Release were not carried over to the Release, and subsequently the BOL. This has been corrected.	49943
