16.1.4 Release Notes :

Hot Key or Application	Ticket Id	Subject	Resolution	Classifications
-	16925	v16 Convert PNG images to ICO format	Change was done to support transparent backgrounds on button images	Feature
-	16727	Maroon Background needs to be changed to white	Fix to change the top of the screen from Maroon to White	Defect
A-R AR A-L AL I-R IR I-L	16693	Customer Reports are displaying an error when you search F1 for a Customer #	Fix was made so that the error message will no longer be displayed when you search for a Customer Number.	Defect
A-R-8 AR8	16765	Report A-R-8 Runs incredibly SLOW	Fix was made so that the report will take less time to run and return data.	Defect
A-W-1 AW1	16842	ARMEMO=Xprint - Credit memo not displaying the correct PO# and order#	Fix was done so the correct PO# and Order# are displayed on the AR memo of the Xprint Format.	Defect
D-R-1 DR1	16572	N-K Reports = DR1 logical value = No (questions mark under D/T column)	Fix was made so question marks will no longer appear on the Machine Efficiency (DR1) report.	Defect
E-B-7 EB7	16696	Tabbing through Flute Unit Counts is skipping around	Fix was done so that this no longer happens. When you tab through the unit counts the cursor will move to the next field.	Defect
E-C EC	14576	FG Item not prompted to be created when Set Header is edited from a blank FG Item	Fix was done so when you enter in a Finished Good # on the Set Header of an Estimate, a pop up will be displayed asking if you want to create that FG#.	Defect
E-F EF	16916	Slow wait time (EFBROWSE = "Std & Paper 1/2")	Fix was done to speed up Folding Estimates.	Defect
E-F EF	16973	Estimating Bug Fix in Release 16.1.4	Fix was done so some errors will not happen.	Defect
E-F EF	16819	F1 lookup on Customer field returns data to Estimate # field	Fix was made so the Customer Number is put in the right field when you use F1 on the Cust# field.	Defect
Email	16659	Background on top of Email Codes window is maroon with a white square on it	Fix was done to make the Background White on the top of the Email Codes window.	Defect
H-L HL	15103	H-L Report	Fix was made so that the output data on the H-L report will not change if the parameters are the same.	Defect
H-R-6 HR6	16812	H-R-6 Report Excel Problem (headings aren't moving)	Fix was done so that the headings move with the correct column data.	Defect
J-L-6 JL6	12670	Add Columns to JL6 to match JR3	Added columns below to the JL6 report when the N-K-1 parameter Reports = JL6 with the logical value = yes. Add columns 1) "QTY INVOICED" - Quantity Invoice will show how many were invoiced. 2) "BOX SALES" - Boxes Sales From JR3 3) "PREP COST" - Prep Cost From JR3 4) "TOTAL COST" - Total Cost From JR3 5) "LAB ACT COST STD CREW" - This is the existing LAB ACT COST column. The existing/default calculation for "LAB ACT COST" column should be based on crew size from TS/DC and not the machine standard crew size. (To be consistent with JR3) "TOTAL COST" column would use the new calculation of LAB ACT COST determine the total. 6) MAT & FARM ACT COST - This would the MAT ACT COST + purchased finished goods items. (This is done in JR3)	Feature
J-R-6 JR6	16694	N-K JOBCARDC = Peachtree - Change logic to Customer PO#	A change was done to their Job Ticket to pull the PO# from the Lot# on the first release line. If that PO# isn't their then it pulls from the PO# from the first release line. If that is not there then the PO# pulls from the Item's PO#.	Defect
J-R-6 JR6	16899	Job Card - Alignment of Right-most characters not consistent	Fix so that Colonial's Job Ticket will not print over the left side of the page.	Defect
J-U-1 JU1	11553	Job Standards Direct Labor Rates Not Transferring from Estimate	Fix was made so that the direct labor rates are transferred from the estimate to the Job when you click the Job Standards button in J-U-1.	Defect
J-U-1 JU1	16735	Rebuild of Job sets start date to blank (returning job to pending on schedule board)	Fix so that the Job Start Date doesn't get wiped out when you rebuild the Job Standards.	Defect
M-U-1 MU1	16837	Auto Generating of Tag (NK Tag#) not creating a unique, unused sequence #	Fix was made to the N-K-1 parameter called Tag# so that the tag number that is automatically generated will use the next number up in the sequence.	Defect
O-B-1 OB1	16676	Misc Charges from O-F-6 not transferring PREP Code GL Sales Account Number	Fix was down so that the GL Number of the Misc Surcharge (O-F-6) on the Invoice pulls from the GL# field in the Prep and Die File (E-B-7 or E-B-8).	Defect
O-B-3 OB3	15422	Email Codes for Ship To Contacts for Printing Invoice aren't working	Fix was made to allow the ship to contacts be able to automatically email Invoices. The email address will be put into the To: email address.	Defect
O-U-1 OU1	16826	O-U-1 showing TMP file on attachments.	Fix was done so that emails are sent with PDF files not TMP files.	Defect

16.1.4 Release Notes :

Hot Key or Application	Ticket Id	Subject	Resolution	Classifications
O-U-1 OU1	16658	Cosmetic fix - Box missing around Hold/Approve date and Ack Date.	Fix so there is a box around the Hold/Approve date and Ack Date on the View Order Folder in OU1.	Defect
O-U-4 OU4	16867	Attachments in the Push Pin Button are not being attached to Emails	A fix was done to have the attachments in the Push Pin button be attached to the email.	Defect
